

Project Manager/Coordinator

About the Opportunity

Javan Engineering is seeking an enthusiastic and driven individual for a Project Manager/Coordinator position. This individual will be responsible for:

- In-House project coordination including managing project financial budgets and project schedules
- Performing field surveys to obtain background measurements, equipment locations, tie-in and demo points
- Overseeing assigned project resources
- Client and vendor interaction
- Strategic planning, conceptual design, preliminary design, detailed design, and providing support in construction and commissioning
- Writing project proposals
- Performing calculations and preparing basis sizing reports for pressure relief device projects
- Preparing project engineering and construction cost estimates

Qualifications

- Bachelor of Science in Mechanical or Chemical Engineering
- A minimum of 8 - 15 years experience in consulting engineering
- A mechanical or process technical background
- Experience running multi-million dollar projects for chemical or industrial-type clients
- Good written and verbal communication skills
- EIT or PE license is a plus
