

## Senior Industrial Engineer

### About the Opportunity

Javan Engineering is seeking an enthusiastic and driven individual for a Senior Industrial Engineer position. This individual will be responsible for:

- Performing mechanical engineering duties and supervising documentation preparation in all phases of projects, i.e. strategic planning, conceptual design, prelim design, detailed design, and provide support in construction and commissioning.
- Preparing cost estimates for all project phases.
- Supporting designers in field surveys to obtain background measurements, equipment locations, tie-in and demo points.
- Coordinating activities with other engineering disciplines, Javan and client project managers and engineers.
- Supervising the activities of designers in preparation of constructible documentation packages.
- Preparing equipment and mechanical contractor bid specifications, and bid tabulations.
- Mechanical scope project success.

### Qualifications

- Bachelor of Science in Mechanical Engineering
- A minimum of 15 years experience in consulting engineering
- Experience running full phase multi-million dollar projects for chemical or industrial-type clients involving bulk powder dry and wet equipment
- Good written and verbal communication skills
- Experience with ASME, API, NFPA, and/or other related applicable standards and codes

**We are conducting interviews with qualified candidates immediately!**

### Benefits:

We recognize people as our most valuable asset. Our competitive salary and benefits package includes 401K Savings Plan, reimbursement for business expenses, dental insurance, medical insurance, disability benefits, life insurance, vacation and sick time, company holidays and tuition reimbursement.
