

Senior Electrical Engineer, P.E.

Javan Engineering, as seen in Smart CEO Magazine, is ranked as one of Philadelphia's fastest growing companies. As a result of three years of sustained growth in an otherwise stagnant market we provide stability coupled with a rewarding and challenging environment. As we are positioned for continued growth we are conducting a hiring campaign to assure we continue to attract top level talent and provide best in class service and customer support. We are looking for a career-minded, growth-oriented individual to make a real impact on our daily operations. Javan Engineering offers a unique environment that fosters individual growth and rewards performance. A commitment to excellence is deeply rooted in a strong sense of tradition. You'll be working with an award-winning team with an impressive track record.

Help Javan Engineering continue to be a leader in the engineering industry by functioning as an Electrical Engineer who provides support for a multi-disciplined team.
