

Process Mechanical Engineer

JAVAN ENGINEERING, INC., as seen in *Smart CEO Magazine*, is ranked as one of Philadelphia's fastest growing companies. Due to years of sustained growth in an otherwise stagnant market, we provide stability coupled with a rewarding, challenging and friendly working environment. As we are positioned for continued growth, we are searching for qualified candidates who wish to work with a team of excellent performers.

We are looking for career-minded, growth-oriented, and self-motivated individuals who want to make a real impact on their own lives as well as others. Javan Engineering offers a unique environment that fosters individual growth and rewards performance. A commitment to excellence is deeply rooted in a strong sense of tradition. You'd be working with an award-winning, professional team that holds an impressive track record. Join a team that prides itself in *"Performance & Relationships!"*
